

I support the Indiana Telephone Privacy law. The FCC should not take any action that will diminish the effectiveness of the current law. I or my family do not wish to interrupted, normally at dinner time when we finally are able to be together, by telemarketing calls. The organizations are, mostly, preying upon the graciousness of people. I currently give contributions to those charities that I feel are appropriate. No, I do not need any information from other telemarketers about other opportunities.
